3. Disposable diapers take up to 500 years to fully decompose.
4. 2,400,000 trees are cut down every year in Canada to make disposable diapers
5. Each year 1.7 billion diapers go directly to the landfill which requires 17,000 garbage trucks to transport them to the landfill.
6. Production of disposable diapers uses 2.3 times more water in the production process than washable diapers.
